CDS-9R

Self-Service Automation Of Coin Recycling

The world's first self-service
coin recycler for public environment

Turn Coin Handling Into Profit

Today's increasingly competitive banking market requires an efficient and secure coin management for serving both retailers and private customers. The high costs involved in managing coins demand optimized and secure solutions. Get increased service and security for your customers through the world's first complete coin handling solution for self-service areas.

Coin Handling - All In One

The CDS-9R is a completely new banking solution for coin deposit as well as coin dispense. Retailers and private customers in need of bulk coin deposits can easily make quick and secure deposits. At the same time CDS-9R is the perfect option for retailers in need of a daily float. The machine dispenses all denominations in any mix or split the user prefers.

Optimize Cost Control with Recycling

Taking control of the cash ensuring higher revenue out of cost and time saving will enable you to meet the customer with the best service. The two-in-one self-service coin machine is a convenient one-stop-shop for both bulk coin deposit and coin dispense. The recycling technology optimizes the need for replenishing the machine and thus minimize the CIT costs. CDS-9R is designed for quick and easy filling or emptying when needed.

The Easiest Process Can be the Most Revolutionary

Transform your customers' coin handling into complete automation. With CDS-9R there will be no more needs of direct coin roll dispensers and separate coin deposit machines.

We'll Find Your Perfect Solution

- Determine your cash management requirements to meet key business metrics
- Select appropriate hardware configurations for your operating environment
- Mix and match the hardware to create the perfect solution
- Use the intuitive CashComplete™ On-Device software or feel free to choose a 3rd party software solution to use together with our XFS version of the CDS-9R

Efficiently Cycle Cash All Through Your Business

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the cash solution you take control of your cash through an efficient cash cycle in all areas of your business. This ensures both time and cost savings, as well as an improved customer service.

Superior Financial and Operational Control

CashComplete™ Connect is the ultimate solution for superior financial and operational control of your cash. The software allows access to data by local departments and from remote locations. The CashComplete™ Connect software can be used for central monitoring and connects with external store systems for even higher efficiency.

- Complete Cash Visibility
- Intelligent Alerting and Monitoring
- Device Management and Reconciliation

Green policy

By designing a coin recycler for public environment, we also aim to increase the sustainability since CIT companies do not need to drive out as often to maintain the machines. With the introduction of the CDS-9R we introduce a greener environment for our customers!
