

# Your Desktop Mail Extractor

## We've Got You Covered

Neopost customer support is there for you with our contact center and trained technicians who are ready to assist you. In fact, our dedication to providing you with world-class customer satisfaction is so advanced that we offer automatic diagnostics with our product line. By uploading systems data, we will be alerted if you are having trouble. This remote access to your system allows us to analyze the situation remotely and then fix it accordingly.

## Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful - offering you a competitive edge that will open up a wealth of business opportunities.

# A Fast and Secure Solution for Opening and Extracting Your Incoming Mail

**Handling incoming mail is very important in any consuming. Invoices, payments and correspondence arrive daily and can easily stack up.**

Automation of this process results in a substantial saving of time so that your mail can be distributed earlier. It also reduces the likelihood of errors and increases performance. With a Neopost letter-opening system by your side, you can make the process of mail opening simpler and much faster. The IM-35 even extracts the contents automatically.

### Simple and Efficient Opening and Extraction

The IM-30 and IM-35 are built for efficiency and are reasonably priced for companies or corporate departments. Neopost offers you a solution with a small footprint that perfectly fits into an office environment. It opens hundreds of envelopes in just a few minutes, or even extracts the contents for more efficient routing.

### Expand Your Possibilities

Extend the IM-30 and IM-35 with conveyor belts and professional mailroom furniture and create the ultimate mail processing solution for now and the future.

### Accessibility

The unique design of the IM-30 and IM-35 provides quick, easy and safe access to the entire envelope path, just by opening one cover. Your mail is visible and accessible during the entire opening or extracting process.

### Output Optimization

Optional conveyor belts enhance the productivity of the IM-30 and IM-35: more operators can sort and judge incoming mail.

### Several Operating Modes

The IM-30 and IM-35 have several operating modes. The machine can be operated either at an adjustable continuous speed or at operator pace by using a unique sensor-driven envelope-transport methodology.

### Easy-to-Operate

The clear and simple control panel is self-explanatory and applications can be changed at the touch of a button. The user can concentrate on the core task: sorting and distributing incoming mail as fast and accurately as possible.

Full automatic content extraction on IM-35

### Protecting Your Documents

To ensure that none of your important or valuable documents are lost during extraction, envelopes are sliced on three sides and unfolded for visual control (standard on IM-35). As an option, an electro-mechanical document detection with four detectors can be delivered.

### Slicing Mechanism

An exclusive and patented slicing mechanism slices the envelope open without cutting anything off. This protects against losing information from valuable documents and it eliminates the production of dust and scrap paper. It also guards against sharp paper edges.

### Standard And Mixed Mail

Does your incoming mail vary in envelope size or is it homogeneous? The IM-30 and IM-35 can easily handle full mixed and standard mail, without changing any settings.

Simply load your envelopes and the machine automatically feeds and opens the envelopes on one, two or three sides, or can even extract the contents!
